

STATE-LEVEL SEMINAR ON IPR

Intellectual property rights (IPR) refer to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time. It is very well settled that IP plays a vital role in the modern economy. It has also been conclusively established that the intellectual labor associated with innovation should be given due importance so that public good emanates from it.

A seminar on IPR was organized by the Departments of science & Research and Development Forum in association with The 1234 Foundation, Thoothukudi on August 30, 2022 in the college premises. The programme was instigated by invoking God's blessings.
